SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2021

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 001-40107

**TCW SPECIAL PURPOSE ACQUISITION CORP.**

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of  
incorporation or organization)

85-4391738

(IRS Employer  
Identification No.)

865 South Figueroa Street  
Los Angeles, CA 90017

(Address of principal executive offices and zip code)

(213) 244-0000

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one share of Class A common stock and one-third of one redeemable warrant	TSPQ.U	New York Stock Exchange
Class A common stock, par value \$0.0001 per share	TSPQ	New York Stock Exchange
Redeemable warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$11.50	TSPQ WS	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer

Non-accelerated filer

Accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of November 17, 2021, there were 46,393,299 shares of the registrant's Class A common stock, par value \$0.0001 per share, issued and outstanding, and 11,598,325 shares of the registrant's Class B common stock, par value \$0.0001 per share, issued and outstanding.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

TCW Special Purpose Acquisition Corp. (the “Company” or “TCW”) is a blank check company incorporated in Delaware on December 21, 2020. The Company was formed for the purpose of entering into a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (a “Business Combination”).

The Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of September 30, 2021, the Company had not commenced any operations. All activity for the period from December 21, 2020 (inception) through September 30, 2021 relates to the Company’s formation, the initial public offering (“Initial Public Offering”) as described below, and since the closing of the Initial Public Offering, the search for a prospective initial Business Combination. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income or gains on investments on the cash and investments held in a trust account from the proceeds derived from the Initial Public Offering and non-operating income or expense in the form of changes in the fair value of warrant liabilities.

The registration statement for the Company’s Initial Public Offering was declared effective on March 1, 2021. On March 4, 2021, the Company consummated the Initial Public Offering of 45,000,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$450,000,000, which is discussed in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 7,333,333 warrants (the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant in a private placement to TCW Special Purpose Sponsor LLC (the “Sponsor”) generating gross proceeds of \$11,000,000, which is described in Note 4.

Following the closing of the Initial Public Offering on March 4, 2021, an amount of \$450,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”), and was invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with maturities of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940, as amended (the “Investment Company Act”), which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

On March 4, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on March 5, 2021, the Company consummated the sale of an additional 1,393,299 Units, at \$10.00 per Unit, and the sale of an additional 185,774 Private Placement Warrants, at \$1.50 per Private Placement Warrant, generating total gross proceeds of \$14,211,651. A total of \$13,932,990 of the net proceeds was deposited into the Trust Account, bringing the aggregate proceeds held in the Trust Account to \$463,932,990.

Transaction costs related to the issuances described above amounted to \$26,216,175, consisting of \$9,278,660 of cash underwriting fees, \$16,237,655 of deferred underwriting fees and \$699,860 of other costs. In addition, at September 30, 2021, \$185,103 of cash was held outside of the Trust Account and is available for working capital purposes.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company must complete a Business Combination with one or more target businesses that together have an aggregate fair market value of at least 80% of the value of the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into an initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

The Company will provide its holders of the outstanding Public Shares (the “public stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 either prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its second amended and restated Certificate of Incorporation (the “Certificate of Incorporation”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or other legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Sponsor has agreed to vote its Founder Shares (as defined in Note 6) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction or don’t vote at all.

Notwithstanding the above, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Certificate of Incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Public Shares, without the prior consent of the Company.

The Sponsor has agreed to waive (i) redemption rights with respect to any Founder Shares and Public Shares held in connection with the completion of an initial Business Combination, (ii) redemption rights with respect to any Founder Shares and Public Shares held in connection with a stockholder vote to approve an amendment to an amended and restated certificate of incorporation to modify the substance or timing of our obligation to allow redemption in connection with an initial Business Combination or to redeem 100% of Public Shares if the Company has not consummated an initial Business Combination within 24 months from the closing of the Initial Public Offering or with respect to any other provisions relating to stockholders’ rights or pre-initial Business Combination activity and (iii) rights to liquidating distributions from the Trust Account with respect to any Founder Shares held if the Company fails to complete an initial Business Combination within 24 months from the closing of the Initial Public Offering or any extended period of time that the Company may have to consummate an initial Business Combination.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

The Company will have until March 4, 2023 to complete a Business Combination, which period can be extended to June 4, 2023 if an agreement in principle for a Business Combination is in place at March 4, 2023 (as so extended, the "Combination Period"). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of remaining stockholders and board of directors, liquidate and dissolve, subject, in each case, to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 7) held in the Trust Account in the event the Company does not complete a Business Combination within in the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (1) \$10.00 per Public Share or (2) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay the Company's taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

#### ***Liquidity***

As of September 30, 2021, the Company had \$185,103 in cash held outside of the Trust Account and working capital of \$66,775.

The Company's liquidity needs prior to the consummation of the Initial Public Offering were satisfied through the proceeds of \$25,000 from the sale of the Founder Shares, and a loan of \$300,000 under an unsecured and non-interest bearing promissory note (see Note 6). Subsequent to the consummation of the Initial Public Offering, the Company's liquidity will be satisfied through the net proceeds from the private placement held outside of the Trust Account and proceeds available to the Company under the Working Capital Loan (as defined in Note 6).

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using the funds held outside of the Trust Account for paying existing accounts payable and accrued liabilities, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

#### ***Risks and Uncertainties***

Management continues to evaluate the impact of the COVID-19 pandemic on the Company's business objectives and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 2. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS**

In accordance with ASC 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. The Company had previously classified a portion of the Class A common stock in permanent equity. Although the Company did not specify a maximum redemption threshold, its charter provides that currently, the Company will not redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001. The Company restated its historical financial statements to classify all Class A common stock as temporary equity and any related impact, as the threshold in its charter would not change the nature of the underlying shares as redeemable and thus would be required to be presented outside of permanent equity.

The reclassification of amounts from permanent equity to temporary equity result in non-cash financial statement corrections and will have no impact on the Company's current or previously reported cash position, operating expenses or total operating, investing or financing cash flows. In connection with the change in presentation for the Class A common stock subject to possible redemption, the Company has restated its earnings per share calculation to allocate income and losses shared pro rata between Class A and Class B shares. This presentation contemplates a Business Combination as the most likely outcome, in which case, Class A and Class B shares share pro rata in the income and losses of the Company.

The following tables summarize the effect of the restatement on each financial statement line item as of the dates, and for the periods, indicated:

	<b>June 30, 2021</b>		
	<b>As Previously Reported</b>	<b>Adjustments</b>	<b>As Restated</b>
<b>Condensed Balance Sheet (unaudited)</b>			
Class A common stock subject to possible redemption	\$ 421,276,600	\$ 42,656,390	\$ 463,932,990

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying financial statements of the Company are presented in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s prospectus for its Initial Public Offering as filed with the SEC on March 3, 2021, as well as the Company’s Current Reports on Form 8-K, as filed with the SEC on March 4, 2021 and March 10, 2021. The interim results for the periods presented are not necessarily indicative of the results to be expected for the year ending December 31, 2021 or for any future interim periods.

***Emerging Growth Company***

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company, which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

*Use of Estimates*

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

*Cash and Cash Equivalents*

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of September 30, 2021 and December 31, 2020.

*Investments Held in Trust Account*

At September 30, 2021, the assets held in the Trust Account were held in money market funds, which were invested in U.S. Treasury securities.

*Class A Common Stock Subject to Possible Redemption*

All of the 46,393,299 shares of Class A common stock sold as part of the Units in the Initial Public Offering contain a redemption feature which allows for the redemption of such Public Shares in connection with the Company's liquidation, if there is a stockholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's second amended and restated certificate of incorporation. In accordance with SEC and its staff's guidance on redeemable equity instruments, which has been codified in Accounting Standards Codification ("ASC") 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Therefore, all Class A common stock has been classified outside of permanent equity.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid-in capital and accumulated deficit.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

As of September 30, 2021, the Class A common stock reflected in the condensed balance sheet are reconciled in the following table:

Gross proceeds	\$ 463,932,990
Less:	
Proceeds allocated to Public Warrants	(23,042,005)
Issuance costs allocated to Class A common stock	(24,898,405)
Plus:	
Remeasurement of carrying value to redemption value	47,940,410
<b>Class A common stock subject to possible redemption</b>	<b>\$ 463,932,990</b>

***Warrant Liabilities***

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in ASC 480, *Distinguishing Liabilities from Equity* ("ASC 480") and ASC 815, *Derivatives and Hedging* ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own common stock, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the statements of operations. The initial fair value of the Public Warrants was estimated using a Monte Carlo simulation approach and the fair value of the Private Placement Warrants was estimated using a Modified Black-Scholes model (see Note 10).

***Offering Costs Associated with the Initial Public Offering***

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin Topic 5A - *Expenses of Offering*. Offering costs consist principally of professional and registration fees incurred through the balance sheet date that are related to the Initial Public Offering. Offering costs directly attributable to the issuance of an equity contract to be classified in equity are recorded as a reduction in equity. Offering costs for equity contracts that are classified as assets and liabilities are expensed immediately. The Company incurred offering costs amounting to \$26,216,175 as a result of the Initial Public Offering (consisting of a \$9,278,660 underwriting fee, \$16,237,655 of deferred underwriting fees and \$699,860 of other offering costs). The Company recorded \$24,898,405 of offering costs as a reduction of temporary equity in connection with the shares of Class A common stock included in the Units. The Company immediately expensed \$1,317,770 of offering costs in connection with the Public Warrants and Private Placement Warrants that were classified as liabilities.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

***Income Taxes***

The Company complies with the accounting and reporting requirements of ASC Topic 740, *Income Taxes*, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits, if any, as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of September 30, 2021 and December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

***Net Income Per Share of Common Stock***

Net income per common share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the period. The remeasurement of Class A common stock subject to redemption to redemption value is excluded from the earnings per share as the redemption value approximates fair value. The Company has not considered the effect of the Warrants sold in the Initial Public Offering and private placement to purchase an aggregate of 22,983,540 shares in the calculation of diluted income per share, since the exercise of the Warrants are contingent upon the occurrence of future events and the inclusion of such Warrants would be anti-dilutive.

The following table reflects the calculation of basic and diluted net income per common share (in dollars, except per share amounts):

	<b>Three Months Ended September 30, 2021</b>		<b>Nine Months Ended September 30, 2021</b>	
	<b>Class A</b>	<b>Class B</b>	<b>Class A</b>	<b>Class B</b>
Basic and diluted net income per share:				
Numerator:				
Net income	\$ 5,741,117	\$ 1,435,279	\$ 13,125,031	\$ 4,236,209
Denominator:				
Basic and diluted weighted average shares outstanding	46,393,299	11,598,325	35,682,049	11,516,666
Basic and diluted net income per share	\$ 0.12	\$ 0.12	\$ 0.37	\$ 0.37

***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

***Fair Value of Financial Instruments***

The Company applies ASC Topic 820, *Fair Value Measurement* ("ASC 820"), which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. ASC 820 defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Company's principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in ASC 820 generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

The carrying amounts reflected in the balance sheet for current assets and current liabilities approximate fair value due to their short-term nature.

Level 1 — Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities.

Level 2 — Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as direct or indirect observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 — Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities.

See Note 10 for additional information on assets and liabilities measured at fair value.

***Recent Accounting Standards***

In August 2020, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40)* (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s financial statements.

**NOTE 4. INITIAL PUBLIC OFFERING**

Pursuant to the Initial Public Offering, the Company sold 46,393,299 Units, which includes the partial exercise by the underwriters of their over-allotment option in the amount of 1,393,299, at \$10.00 per Unit, generating gross proceeds of \$463,932,990. Each Unit consisted of one share of the Company’s Class A common stock, \$0.0001 par value, and one-third of one redeemable warrant (“Public Warrant”). Each whole Public Warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50 per whole share (see Note 8).

**NOTE 5. PRIVATE PLACEMENT**

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 7,333,333 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant (for an aggregate purchase price of \$11,000,000). On March 4, 2021, the underwriters notified the Company of their intention to exercise the over-allotment option in part, resulting in the Sponsor paying an aggregate of \$278,661 in exchange for an additional 185,774 Private Placement Warrants. Each Private Placement Warrant is exercisable for one share of Class A common stock at a price of \$11.50 per share. The proceeds from the sale of the Private Placement Warrants were added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the Private Placement Warrants.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 6. RELATED PARTY TRANSACTIONS**

***Founder Shares***

In December 2020, the Sponsor paid \$25,000 to cover certain offering costs of the Company in consideration for 7,187,500 shares of Class B common stock (the “Founder Shares”). In January 2021, the Company effected a 1:1.20 stock split of Class B common stock, resulting in an aggregate of 8,625,000 shares of Class B common stock issued and outstanding. In February 2021, the Company effected a 1:1.33 stock split of Class B common stock, resulting in an aggregate of 11,500,000 shares of Class B common stock issued and outstanding. In March 2021, the Company effected a 1:1.125 stock split of Class B common stock, resulting in an aggregate of 12,937,500 shares of Class B common stock issued and outstanding. The Founder Shares included an aggregate of up to 1,687,500 shares subject to forfeiture, on a pro rata basis, to the extent that the underwriter’s over-allotment is not exercised in full or in part, so that the Sponsor would collectively own, on an as-converted basis, 20% of the Company’s issued and outstanding shares upon the completion of the Initial Public Offering. On March 5, 2021, the underwriters partially exercised the over-allotment option to purchase an additional 1,393,299 Units (see Note 7), leaving 1,339,175 shares of Class B common stock subject to forfeiture as of March 31, 2021. In April 2021, the remaining portion of the over-allotment option expired. As a result, 1,339,175 shares of Class B common stock were forfeited.

The Sponsor has agreed that, subject to certain limited exceptions, the Founder Shares will not be transferred, assigned, sold or released from escrow until the earlier of (a) one year after the completion of a Business Combination or (b) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction after a Business Combination that results in all of the Company’s stockholders having the right to exchange their Class A common stock for cash, securities or other property. Notwithstanding the foregoing, if (i) the closing price of the Company’s Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Business Combination or (ii) if the Company consummates a transaction after the Business Combination which results in the Company’s stockholders having the right to exchange their shares for cash, securities or other property, the Founder Shares will be released from the lock-up.

***Promissory Note - Related Party***

On December 28, 2020, the Company issued an unsecured promissory note to the Sponsor (the “Promissory Note”), pursuant to which the Company received proceeds of \$300,000 to cover expenses related to the Initial Public Offering. The Promissory Note was non-interest bearing and was payable on the earlier of June 30, 2021 or the completion of the Initial Public Offering. The outstanding balance under the Promissory Note of \$172,558 was repaid on March 9, 2021.

***Related Party Loans***

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company’s directors and officers may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”).

On June 17, 2021, the Company entered into a \$2,000,000 Working Capital Loan with TCW Asset Management Company LLC (“TAMCO”), an affiliate of the Sponsor. The Working Capital Loan bears no interest and is payable upon the consummation of the initial Business Combination or the winding up of the Company. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to \$2,000,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.50 per warrant. The warrants would be identical to the Private Placement Warrants. If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

As of September 30, 2021, the Company had not drawn any amount on the Working Capital Loan.

***Administrative Support Agreement***

The Company entered into an agreement, commencing on the effective date of the Initial Public Offering, to pay the Sponsor a total of \$10,000 per month for secretarial and administrative support. Upon completion of the Business Combination or the Company's liquidation, the Company will cease paying these monthly fees. Under this agreement, \$30,000 and \$70,000 of expenses were incurred during the three and nine months ended September 30, 2021, respectively, and are included in operating and formation costs in the condensed statements of operations. As of September 30, 2021, \$70,000 related to this agreement is recorded in accrued expenses - related party on the condensed balance sheet.

***Advance from Related Party***

On February 25, 2021, the Sponsor advanced \$1,201,000 to the Company to cover the purchase of additional Private Placement Warrants if the over-allotment was exercised in full. On March 4, 2021, the underwriters notified the Company of their intention to exercise the over-allotment option in part. Upon the closing of the over-allotment, the Company utilized the advance from the Sponsor to issue an additional 185,774 Private Placement Warrants for an aggregate of \$278,661. On March 9, 2021, the Company repaid the remaining advance from related party of \$922,339.

**NOTE 7. COMMITMENTS AND CONTINGENCIES**

***Registration Rights***

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A common stock issuable upon the exercise of the Private Placement Warrants) will have registration rights to require the Company to register a sale of any of its securities held by them pursuant to a registration rights agreement. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The Company granted the underwriters a 45-day option to purchase up to 6,750,000 additional Units to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. On March 5, 2021 the underwriters purchased an additional 1,393,299 Units at an offering price of \$10.00 per Unit, generating additional gross proceeds of \$13,932,990 to the Company. In April 2021, the remaining portion of the underwriters' over-allotment option expired.

The underwriters were paid a cash underwriting fee of \$0.20 per Unit, or \$9,278,660 in the aggregate. In addition, \$0.35 per Unit, or \$16,237,655 in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

***Financial Advisory Agreement***

On August 9, 2021, the Company entered into an agreement with TAMCO, an affiliate of the Sponsor, to provide strategic advice and assistance to the Company in connection with a Business Combination, including providing assistance in connection with the financing of the Business Combination. As consideration for the services to be rendered, the Company has agreed to pay TAMCO (a) a transaction fee equal to 50% of the aggregate merger & acquisition financial advisory fees paid or payable in connection with a Business Combination, payable at or promptly following the closing of a Business Combination; and (b) a placement fee equal to 20% of the aggregate placement fees paid or payable in connection with any Private Investment in Public Equity ("PIPE") financing raised as part of a Business Combination, payable at or promptly following the closing of a Business Combination. In addition to such fees, the Company will reimburse TAMCO for TAMCO's reasonable, documented and customary out-of-pocket expenses (including reasonable legal and other professional fees, expenses and disbursements) incurred in connection with the services to be provided by TAMCO, up to an amount not to exceed \$50,000. If the Company does not complete a Business Combination within the Combination Period, neither the Company nor TAMCO shall have any liability or continuing obligation to the other party except for any fees accrued and expenses incurred by TAMCO. There are no costs accrued under the advisory agreement as of September 30, 2021.

***Contingent Warrants***

On July 12, 2021, the board of directors approved a contract to issue 100,000 warrants to a person affiliated with the Company. The warrant issuance is contingent upon the Company's completion of a Business Combination. Accordingly, no expense has been recorded as of September 30, 2021.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 8. WARRANTS**

Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination or (b) one year from the closing of the Initial Public Offering. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and the Company will not be obligated to issue a share of Class A common stock upon exercise of a warrant unless the share of Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 15 business days after the closing of a Business Combination, it will use its commercially reasonable efforts to file with the SEC and have an effective registration statement covering the shares of Class A common stock issuable upon exercise of the warrants. The Company will use its commercially reasonable efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective by the sixtieth (60th) business day after the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Company's Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, the Company will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Once the Public Warrants become exercisable, the Company may redeem the Public Warrants (except with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period. If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if the Company is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Once the Public Warrants become exercisable, the Company may redeem the Public Warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to an agreed table based on the redemption date and the value (as defined below) of the Company's Class A common stock except as otherwise described below;

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

- if, and only if, the closing price of the Company's Class A common stock equals or exceeds \$10.00 per Public Share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within the 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders; and
- if the closing price of the Company's Class A common stock for any 20 trading days within a 30-trading day period ending three trading days before the Company sends notice of redemption to the warrant holders is less than \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like), the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding Public Warrants, as described above.

The value of the Company's Class A common stock shall mean the volume weighted average price of the Company's Class A common stock during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. This redemption feature differs from the typical warrant redemption features used in other blank check offerings. The Company will provide its warrant holders with the final value no later than one business day after the 10 trading day period described above ends. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant (subject to adjustment).

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of shares of Class A common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, or recapitalization, reorganization, merger or consolidation. However, except as described below, the warrants will not be adjusted for issuance of Class A common stock at a price below its exercise price. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of its initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to its Sponsor or its affiliates, without taking into account any Founder Shares held by its Sponsors or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the Company's initial Business Combination on the date of the consummation of such initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's Class A common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price described above under "Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described above under "Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00" will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants underlying the Units being sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A common stock issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

At September 30, 2021, there were 15,464,433 Public Warrants and 7,519,107 Private Placement Warrants outstanding. The Company accounts for the Public Warrants and Private Placement Warrants in accordance with the guidance contained in ASC 815-40. Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability.

The accounting treatment of derivative financial instruments required that the Company record the warrants as derivative liabilities at fair value upon the closing of the Initial Public Offering. The Public Warrants were allocated a portion of the proceeds from the issuance of the Units equal to its fair value. The warrant liabilities are subject to re-measurement at each balance sheet date. With each such re-measurement, the warrant liabilities are adjusted to current fair value, with the change in fair value recognized in the Company's statement of operations. The Company will reassess the classification at each balance sheet date. If the classification changes as a result of events during the period, the warrants will be reclassified as of the date of the event that causes the reclassification. There was no change in the classification of warrant liabilities as of September 30, 2021.

**NOTE 9. STOCKHOLDERS' EQUITY**

**Preferred stock** — The Company is authorized to issue 1,000,000 shares of \$0.0001 par value preferred stock. As of September 30, 2021 and December 31, 2020, there were no shares of preferred stock issued or outstanding.

**Class A common stock** — The Company is authorized to issue up to 380,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of the Class A common stock are entitled to one vote for each share. As of September 30, 2021 and December 31, 2020, there were 46,393,299 and no shares of Class A common stock issued and outstanding, including 46,393,299 and no shares of Class A common stock subject to possible redemption, respectively.

**Class B common stock** — The Company is authorized to issue up to 20,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. As of September 30, 2021 and December 31, 2020, there were 11,598,325 and 12,937,500 shares of Class B common stock issued and outstanding, respectively.

In January 2021, the Company effected a 1:1.20 stock split of Class B common stock, resulting in an aggregate of 8,625,000 shares of Class B common stock issued and outstanding. In February 2021, the Company effected a 1:1.33 stock split of Class B common stock, resulting in an aggregate of 11,500,000 shares of Class B common stock issued and outstanding. In March 2021, the Company effected a 1:1.125 stock split of Class B common stock, resulting in an aggregate of 12,937,500 shares of Class B common stock issued and outstanding. In April 2021, the remaining portion of the underwriters' over-allotment option expired. As a result, 1,339,175 shares of Class B common stock were forfeited.

Holders of Class A common stock and Class B common stock will vote together as a single class on all other matters submitted to a vote of shareholders except as required by law. Prior to an initial Business Combination, holders of Class B common stock will have the right to elect all of the Company's directors and may remove members of the board of directors for any reason.

The Class B common stock will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of an initial Business Combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment. In the case that additional shares of Class A common stock or equity-linked securities are issued or deemed issued in connection with an initial Business Combination, the number of shares of Class A common stock issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by public stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into shares of Class A common stock issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Warrants issued to the Sponsor, officers or directors upon conversion of working capital loans, provided that such conversion of Founder Shares will never occur on a less than one-for-one basis.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 10. FAIR VALUE MEASUREMENTS**

The following table presents information about the Company's financial assets that are measured at fair value on a recurring basis at September 30, 2021, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

<b>Description</b>	<b>Amount at Fair Value</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
<b>September 30, 2021</b>				
Assets				
Investments held in Trust Account:				
Money Market investments	\$ 463,948,872	\$ 463,948,872	\$ —	\$ —
Liabilities				
Warrant liability – Public Warrants	\$ 9,587,948	\$ 9,587,948	\$ —	\$ —
Warrant liability – Private Placement Warrants	\$ 4,737,038	\$ —	\$ —	\$ 4,737,038

The Company utilized a Monte Carlo simulation model for the initial valuation the Public Warrants. The subsequent measurement of the Public Warrants beginning April 21, 2021 is classified as Level 1 due to the use of an observable market quote in an active market under the ticker TSPQ WS. The quoted price of the Public Warrants was \$0.62 per warrant as of September 30, 2021.

The Company utilizes a Modified Black-Scholes model to value the Private Placement Warrants at each reporting period, with changes in fair value recognized in the statement of operations. The estimated fair value of the Private Placement Warrant liability is determined using Level 3 inputs. Inherent in a binomial options pricing model are assumptions related to expected share-price volatility, expected life, risk-free interest rate and dividend yield. The Company estimates the volatility of its common stock based on historical volatility that matches the expected remaining life of the warrants. The risk-free interest rate is based on the U.S. Treasury zero-coupon yield curve on the grant date for a maturity similar to the expected remaining life of the warrants. The expected life of the warrants is assumed to be equivalent to their remaining contractual term. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero.

Transfers to/from Levels 1, 2 and 3 are recognized at the end of the reporting period. The estimated fair value of the Public Warrants transferred from a Level 3 measurement to a Level 1 fair value measurement as of June 30, 2021 after the Public Warrants were separately listed and traded, as described above.

**TCW SPECIAL PURPOSE ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

The following table provides the significant unobservable inputs used in the Monte Carlo Simulation to measure the fair value of the Public Warrants at issuance:

	At March 4, 2021 (Initial Measurement)
Stock price	\$ 10.03
Strike price	\$ 11.50
Probability of completing a Business Combination	83.0%
Expected life of the option to convert (in years)	6.6
Volatility	5.0% pre-merger / 23.5% post-merger
Risk-free rate	1.1%
Fair value of warrants	\$ 1.49

The following table provides the significant unobservable inputs used in the Modified Black-Scholes model to measure the fair value of the Private Placement Warrants:

	At March 4, 2021 (Initial Measurement)	As of September 30, 2021
Stock price	\$ 10.03	\$ 9.78
Strike price	\$ 11.50	\$ 11.50
Dividend yield	—%	—%
Remaining term (in years)	6.6	5.7
Volatility	20.1%	10.9%
Risk-free rate	1.1%	1.1%
Fair value of warrants	\$ 1.49	\$ 0.63

The following table provides a summary of the changes in the fair value of the Company's Level 3 financial instruments that are measured at fair value on a recurring basis:

Fair value as of December 31, 2020	\$ —
Initial measurement at March 4, 2021	33,276,670
Initial measurement of over-allotment warrants	968,810
Change in fair value	(459,675)
Fair value as of March 31, 2021	33,785,805
Transfer of Public Warrants to Level 1 measurement	(22,732,717)
Change in fair value	(3,834,745)
Fair value as of June 30, 2021	7,218,343
Change in fair value	(2,481,305)
Fair value as of September 30, 2021	\$ 4,737,038

The Company recognized gains in connection with changes in the fair value of warrant liabilities of \$7,584,568 and \$19,920,494 within change in fair value of warrant liabilities in the Condensed Statements of Operations during the three and nine months ended September 30, 2021, respectively.

**NOTE 11. SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

## ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References in this report (the “Quarterly Report”) to “we,” “us” or the “Company” refer to TCW Special Purpose Acquisition Corp. References to our “management” or our “management team” refer to our officers and directors, and references to the “Sponsor” refer to TCW Special Purpose Sponsor LLC. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

### Special Note Regarding Forward-Looking Statements

This Quarterly Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Exchange Act that are not historical facts, and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding the Company’s financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as “expect,” “believe,” “anticipate,” “intend,” “estimate,” “seek” and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management’s current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company’s final prospectus for its initial public offering (the “Initial Public Offering”) filed with the U.S. Securities and Exchange Commission (the “SEC”) and Part II, Item 1A “Risk Factors” below. The Company’s securities filings can be accessed on the EDGAR section of the SEC’s website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

### Overview

We are a blank check company incorporated on December 21, 2020 as a Delaware corporation and formed for the purpose of effectuating a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this Quarterly Report as our “initial business combination”. We intend to effectuate our initial business combination using cash from the proceeds of the Initial Public Offering and the private placement of the Private Placement Warrants (as defined below), the proceeds of the sale of our shares in connection with our initial business combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of the Initial Public Offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

### Results of Operations

We have neither engaged in any operations nor generated any operating revenues to date. Our only activities for the nine months ended September 30, 2021 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and, after our Initial Public Offering, identifying a target company for a business combination. We do not expect to generate any operating revenues until after the completion of our initial business combination. We generate non-operating income in the form of interest income on cash and cash equivalents held after the Initial Public Offering. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended September 30, 2021, we had net income of \$7,176,396, which resulted from a gain on the change in fair value of warrant liabilities of \$7,584,568 and interest income on investments held in the trust account in the amount of \$7,128, partially offset by operating and formation costs of \$365,689 and franchise tax expense of \$49,611.

For the nine months ended September 30, 2021, we had net income of \$17,361,240, which resulted from a gain on the change in fair value of warrant liabilities of \$19,920,494 and interest income on investments held in the trust account in the amount of \$15,882, partially offset by expensed offering costs of \$1,317,770, operating and formation costs of \$1,107,777 and franchise tax expense of \$149,589.

### **Liquidity and Capital Resources**

On March 4, 2021, we consummated an Initial Public Offering of 45,000,000 units (the “Units”) generating gross proceeds to the Company of \$450,000,000. Simultaneously with the closing of the Initial Public Offering, we completed the private sale of 7,333,333 warrants to TCW Special Purpose Sponsor LLC at a purchase price of \$1.50 per warrant (the “Private Placement Warrants”), generating gross proceeds of \$11,000,000.

On March 4, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on March 5, 2021, the Company consummated the sale of an additional 1,393,299 Units, at \$10.00 per Unit, and the sale of an additional 185,774 Private Placement Warrants, at \$1.50 per Private Placement Warrant, generating total gross proceeds of \$14,211,651. A total of \$13,932,990 of the net proceeds was deposited into a trust account, bringing the aggregate proceeds held in the trust account to \$463,932,990.

For the nine months ended September 30, 2021, net cash used in operating activities was \$1,319,138, which was due to non-cash adjustments to net income related to a change in fair value of warrant liabilities of \$19,920,494, interest income on investments held in the trust account of \$15,882, and changes in working capital of \$61,772, partially offset by net income of \$17,361,240 and expensed offering costs added back to net income of \$1,317,770.

For the nine months ended September 30, 2021, net cash used in investing activities of \$463,932,990 was the result of the amount of net proceeds from the Initial Public Offering and the private placement sale of warrants being deposited to the trust account.

Net cash provided by financing activities for the nine months ended September 30, 2021 of \$465,437,231 was comprised of \$454,654,330 in proceeds from the issuance of Units in the Initial Public Offering net of underwriter’s discount paid, \$11,278,661 in proceeds from the issuance of warrants in a private placement to our Sponsor, proceeds from the advance from a related party of \$922,339 and proceeds from the issuance of a promissory note to our Sponsor of \$165,058, partially offset by the repayment of advance to a related party of \$922,339, payment of \$488,260 for offering costs associated with the Initial Public Offering and repayment of the outstanding balance on the promissory note to our Sponsor of \$172,558.

As of September 30, 2021, we had cash of \$185,103 held outside the trust account. We intend to use the funds held outside the trust account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company’s directors and officers may, but are not obligated to, loan us funds as may be required (“Working Capital Loans”).

On June 17, 2021, we entered into a \$2,000,000 Working Capital Loan with TCW Asset Management Company LLC, an affiliate of our Sponsor. The Working Capital Loan bears no interest and is payable upon the consummation of the initial Business Combination or the winding up of the Company. The Working Capital Loan would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to \$2,000,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.50 per warrant. The warrants would be identical to the Private Placement Warrants. If we complete a Business Combination, we would repay the Working Capital Loans out of the proceeds of the Trust Account released to us. Otherwise, the Working Capital Loan would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, we may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loan, but no proceeds held in the Trust Account would be used to repay the Working Capital Loan.

As of September 30, 2021, we had not drawn any amount on the Working Capital Loan.

We do not believe we will need to raise additional funds following the Initial Public Offering in order to meet the expenditures required for operating our business prior to our initial business combination. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to complete our business combination or because we become obligated to redeem a significant number of Public Shares upon completion of our business combination, in which case we may issue additional securities or incur debt in connection with such business combination. In addition, we intend to target businesses larger than we could acquire with the net proceeds of our Initial Public Offering and the sale of the private placement warrants and may as a result be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

#### **Off-Balance Sheet Arrangements**

We did not have any off-balance sheet arrangements as of September 30, 2021.

#### **Contractual Obligations**

##### *Registration Rights*

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A common stock issuable upon the exercise of the Private Placement Warrants) will have registration rights to require the Company to register a sale of any of its securities held by them pursuant to a registration rights agreement. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a business combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

##### *Underwriting Agreement*

The Company granted the underwriters a 45-day option to purchase up to 6,750,000 additional Units to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. On March 5, 2021 the underwriters purchased an additional 1,393,299 Units at an offering price of \$10.00 per Unit, generating additional gross proceeds of \$13,932,990 to the Company. In April 2021, the remaining portion of the over-allotment option expired.

The underwriters were paid a cash underwriting fee of \$0.20 per Unit, or \$9,278,660 in the aggregate. In addition, \$0.35 per Unit, or \$16,237,655 in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a business combination, subject to the terms of the underwriting agreement.

##### *Financial Advisory Agreement*

On August 9, 2021, the Company entered into an agreement with TCW Asset Management Company LLC (“TAMCO”), an affiliate of the Sponsor, to provide strategic advice and assistance to the Company in connection with a Business Combination, including providing assistance in connection with the financing of the Business Combination. As consideration for the services to be rendered, the Company has agreed to pay TAMCO (a) a 24 transaction fee equal to 50% of the aggregate merger & acquisition financial advisory fees paid or payable in connection with a Business Combination, payable at or promptly following the closing of a Business Combination; and (b) a placement fee equal to 20% of the aggregate placement fees paid or payable in connection with any Private Investment in Public Equity (“PIPE”) financing raised as part of a Business Combination, payable at or promptly following the closing of a Business Combination. In addition to such fees, the Company will reimburse TAMCO for TAMCO’s reasonable, documented and customary out-of-pocket expenses (including reasonable legal and other professional fees, expenses and disbursements) incurred in connection with the services to be provided by TAMCO, up to an amount not to exceed \$50,000. If the Company does not complete a Business Combination within the Combination Period, neither the Company nor TAMCO shall have any liability or continuing obligation to the other party except for any fees accrued and expenses incurred by TAMCO. There are no costs accrued under the advisory agreement as of September 30, 2021.

##### *Contingent Warrants*

On July 12, 2021, the board of directors approved a contract to issue 100,000 warrants to a person affiliated with the Company. The warrant issuance is contingent upon the Company’s completion of a Business Combination. Accordingly, no expense has been recorded as of September 30, 2021.

## Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

### *Warrant Liabilities*

We account for the Private Placement Warrants and the redeemable warrants (the “Public Warrants”) that were included in units issued by the Company in its Initial Public Offering (collectively, the “Warrants”) in accordance with Accounting Standards Codification (“ASC”) 815-40, *Derivatives and Hedging—Contracts in Entity’s Own Equity* (“ASC 815”), under which the Warrants do not meet the criteria for equity classification and must be recorded as liabilities. As the Warrants meet the definition of a derivative as contemplated in ASC 815, the Warrants are measured at fair value at inception and at each reporting date in accordance with ASC 820, *Fair Value Measurement*, with changes in fair value recognized in the statement of operations in the period of change.

### *Common stock subject to possible redemption*

All of the 46,393,299 shares of Class A common stock sold as part of the Units in the Initial Public Offering contain a redemption feature which allows for the redemption of such shares of Class A common stock in connection with the Company’s liquidation, if there is a stockholder vote or tender offer in connection with our business combination and in connection with certain amendments to the Company’s second amended and restated certificate of incorporation. In accordance with SEC and its staff’s guidance on redeemable equity instruments, which has been codified in Accounting Standards Codification (“ASC”) 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Therefore, all Class A common stock has been classified outside of permanent equity.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid in capital and accumulated deficit.

### *Net Income Per Common Share*

Net income per common share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the period. The Company has not considered the effect of the Warrants sold in the Initial Public Offering and private placement to purchase an aggregate of 22,983,540 shares in the calculation of diluted income per share, since the exercise of the Warrants are contingent upon the occurrence of future events and the inclusion of such Warrants would be anti-dilutive.

### *Recent Accounting Standards*

In August 2020, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40)* (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. We are currently assessing the impact, if any, that ASU 2020-06 would have on our financial position, results of operations or cash flows.

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

This item is not applicable as we are a smaller reporting company.

### ITEM 4. CONTROLS AND PROCEDURES.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

#### *Evaluation of Disclosure Controls and Procedures*

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. In connection with the preparation of this Form 10-Q, we revised our prior position on accounting for redeemable common stock. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, due to the Company's restatement of its March 4, 2021, March 31, 2021, and June 30, 2021 financial statements to reclassify the Company's redeemable common stock, the Company's disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Exchange Act) were not effective as of September 30, 2021.

Management concluded that a material weakness in internal control over financial reporting existed relating to the accounting treatment for complex financial instruments. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. This material weakness resulted in the restatement of the Company's audited financial statement as of March 4, 2021 and unaudited financial statements as of and for the periods ended March 31, 2021 and June 30, 2021.

#### *Restatement of Previously Issued Financial Statements*

We revised our prior position on accounting for redeemable common stock and restated our audited financial statement as of March 4, 2021 and unaudited financial statements as of and for the periods ended March 31, 2021 and June 30, 2021 to reclassify our redeemable common stock as temporary equity as described in Note 2 of the accompanying financial statements.

#### *Changes in Internal Control Over Financial Reporting*

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. In light of the restatement of our financial statement included in this Quarterly Report, we plan to enhance our processes to identify and appropriately apply applicable accounting requirements to better evaluate and understand the nuances of the complex accounting standards that apply to our financial statements. Our plans at this time include providing enhanced access to accounting literature, research materials and documents and increased communication among our personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of our remediation plan can only be accomplished over time, and we can offer no assurance that these initiatives will ultimately have the intended effects.

## PART II - OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

None.

### ITEM 1A. RISK FACTORS

The risk factors disclosed in “Risk Factors” included in our final prospectus for our Initial Public Offering filed with the SEC on March 3, 2021 (“IPO Prospectus”) and our Quarterly Report for the quarterly period ended March 31, 2021 filed on Form 10-Q with the SEC on May 14, 2021 (“Q1 2021 Form 10-Q”) are hereby incorporated by reference. As of the date of this Quarterly Report, except as disclosed below, there have been no material changes to the risk factors disclosed in the IPO Prospectus and Q1 2021 Form 10-Q.

*In connection with the recent restatement of our financial statements, our management has concluded that our disclosure controls and procedures were not effective as of September 30, 2021 due to a material weakness in internal control over financial reporting solely related to our accounting for complex financial instruments. If we are unable to maintain an effective system of disclosure controls and procedures and internal control over financial reporting, we may not be able to accurately report our financial results in a timely manner, which may adversely affect investor confidence in us and materially and adversely affect our business and financial results.*

After consultation with our independent registered public accounting firm and our management team, our audit committee concluded that it was appropriate to restate our previously issued audited balance sheet as of March 4, 2021 and our financial statements included in the Form 10-Q for the quarters ended March 31, 2021, and June 30, 2021. As part of such process, we identified a material weakness in our internal control over financial reporting, solely related to our accounting for complex financial instruments.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected and corrected on a timely basis. Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. We expect to take steps to remediate the material weakness, but there is no assurance that any remediation efforts will ultimately have the intended effects.

If we identify any new material weaknesses in the future, any such newly identified material weakness could limit our ability to prevent or detect a misstatement of our accounts or disclosures that could result in a material misstatement of our annual or interim financial statements. In such case, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in our financial reporting and our stock price may decline as a result. We cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to avoid potential future material weaknesses.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

### ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

### ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**TCW Special Purpose Acquisition Corp.**

Date: November 18, 2021

By: /s/ Joseph R. Shaposhnik

Name: Joseph R. Shaposhnik

Title: Chief Executive Officer

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER  
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Joseph R. Shaposhnik, certify that:

1. I have reviewed this quarterly report on Form 10-Q of TCW Special Purpose Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
